FREE AND EASY WAYS TO SAVE ENERGY

Here are 10 easy, no-cost ways to save energy this summer:

1.
Close or lower window coverings during the heat of the day

6.
Unplug that extra fridge, especially older, inefficient models (they have to work even harder in a hot garage)

2.
Set your thermostat a few degrees higher

7.
Optimize your programmable thermostat's features (around 40% of homeowners never program them)

3.
Take cooler showers (this feels better in the summer, anyway)

8.
Check the airflow around windows and doors (add weather stripping if needed)

4.
Use countertop appliances or a microwave instead of your oven

9.
Unplug all chargers and electronics before leaving the house

5.
Better yet, grill or smoke food outdoors

10.
SHUT THE FRONT DOOR (don't air condition the outdoors)

Audit Completed

Auditors from the accounting firm of Eide Bailly, CPA in South Dakota were at the Calhoun County Electric Cooperative office in June conducting the annual audit. While they were here, the auditors reviewed all accounting practices and procedures, which Calhoun County Electric Cooperative follows. The books were examined to ensure that what was being recorded as expenses, depreciation, margins and assets were correct and in place. Physical inventory in the warehouse, which included poles, wire, etc., were counted and tracked to see that it was being properly managed. Everything was found to be in very good condition. A complete audit report will be distributed to the Board of Directors at a future board meeting.
